Profile Summary

- Total 1.8 year of IT Experience , with past 1.5+ years worked as a RoR(Ruby on Rails) developer on Linux Operating System in Production, Test and Development Environments and 1 month of induction training at Harbinger Systems Pvt. Ltd.
- As a fresher in IT, gained rudimentary knowledge of the trending technologies like RoR, NoSql like OrientDB, graph database and relational database Postgres.
- Good exposure to work under Human capital management and Human Resource domain.
- Involved in all the phases of Software Development. From requirement gathering to deployment, excellent in giving suggestions and understanding the problem statement.

Technical Skills

- **Programming Languages:** Ruby, C, Java, HTML, Visual Basic
- **Scripting Languages:** Javascript, JQuery, AJAX
- **Framework:** Rails
- **Databases:** Postgres, OrientDB, Oracle Database 10g (SQL)
- **Operating Systems:** Windows, Ubuntu (Linux)
- **Development Tools:**, Code Climate, Phabricator, NetBeans, Eclipse, Sublime, IBM AppScan Tool, Microsoft Visual Studio 13
- **Version Control:** GitHub, SVN
- **Testing Frameworks:** Rspec , Cucumber
- **Bug Tracking Tool:** JIRA

Project Experience Summary

Positive Highlights:

- Underwent three months training of the entire architecture of the project, based on Human Capital Management.
- Became a believable contributor, efficiently carried out the sprint tasks assigned to me.
- Always got appreciated for showing positive attitude towards problem statements and taking complete ownership of the task.

- Analyzing the task, presenting suggestions and scenarios and performing complete testing before deployment so that minimal defects get introduced. Got appreciated for this ability.

My Contributions:

- Responsible for fixing bugs logged in Jira during the initial phase, to get insights of the project.
- Responsible for applying sorting on 30+ grids throughout our application, as per requirement. Involved in analysis on sorting of hashes and ActiveRecord, especially when the data is similar on both rows.
- Responsible for optimization of few controllers in our application, to reduce flog value, hence complexity.
- Responsible for adding editable feature to group discussions carried out in a group, on each user profile.
- Responsible for providing export functionality to grids. Especially, export to pdf and xlsx.
- Responsible for writing Specs of controllers, in order to increase overall code coverage of our application.
